

"Developed by Shepherds for Shepherds"

Selling Commercial Ewes

Do you own commercial hair sheep and use Registered Katahdin rams?

We will help you market your Katahdin influenced commercial ewes.

Enrollment is easy, become a member, verify you owned a Registered Katahdin ram at time of lambing and number of ewes exposed to that ram. For more information contact KHSI Operations at information below.

By enrolling in the KatPlus program, your name and information will be included on a special KatPlus Ewe Page on our website and KatPlus program ear tags will be provided at minimal cost.

Buying Commercial Ewes

Are you looking to buy large lots of commercial Katahdin or Katahdin-influenced ewe lambs?

We are providing a market place on our website for commercial hair sheep flocks producing ewes from Registered Katahdin rams.

Go to www.Katahdins.org and look for the KATPlus page. Read the descriptions of the management styles of the sheep offered for sale and pick what is important for your flock goals.

All transactions are between the buyer and the seller. KHSI is only helping make the introduction.
